What Is Dilaudid 10mg (Hydromorphone)?

Dilaudid, also known as **Hydromorphone**, is a powerful opioid analgesic used to relieve **moderate to severe pain** that cannot be managed by weaker medications. It is much stronger than Morphine, making it a highly effective treatment for patients requiring intense pain relief.

Dilaudid 10mg is commonly prescribed for:

- Post-operative pain

- Severe musculoskeletal pain
- Cancer-related or neuropathic pain
- Injury trauma pain
- Pain flare-ups requiring quick relief

It works by binding to opioid receptors in the brain and spinal cord, **reducing the perception of pain** and creating a sense of relief and comfort.
